

ASTRALPOOL 

DUAL PURE

Salt electrolysis
and pH regulation

The best combination for disinfecting your pool

- ▶ Forget the chore of adding chlorine to your pool
- ▶ Disinfection by salt electrolysis
- ▶ Automatic pH regulation and dosing
- ▶ For pools of up to 160 m³
- ▶ Automatic cover detector
- ▶ No calibration of the probe required

DUAL PURE

Salt electrolysis and pH regulation

Features:

- Salt electrolysis
- Automatic pH regulation and dosing
- pH dosing pump included
- Automatic cover detector to avoid hyperchlorination
- The probe does not require calibrating
- Models for pools of 60, 100 and 160 m³
- Central unit and electrodes under a 2-year warranty
- pH probe under a 6-month warranty

SALT ELECTROLYSIS

| | |
|--------------------------------|--------------------------------|
| Recommended salt content | between 4 gr/l |
| Recommended pH | 7.4 |
| Recommended stabiliser content | between 10-15 g/m ³ |
| Maximum stabiliser content | 40 g/m ³ |

pH REGULATION

| | |
|---------------------------------|------------------|
| Proportional regulation | pH + 6 pH - |
| Pump flow rate | 2.4 l/h |
| pH measurement range | between 4 and 11 |
| Range of pH regulation settings | from 6 to 9 |
| pH start-up regulation range | from 6.8 to 7.8 |
| Accuracy | +/- 0.02 |
| Calibration | 0.001 |
| pH regulation operating range | +/- 0.05 |
| Maximum pump pressure | 1 bar |

| | |
|--|-------------------|
| Power cable (connected to the filter pump) | 220v 50/60Hz |
| Size | 38 x 27.5 x 16 cm |

| CODE | MODEL | POOL OF UP TO |
|-------|---------------|--------------------|
| 60280 | Dual Pure 60 | 60 m ³ |
| 60281 | Dual Pure 100 | 100 m ³ |
| 60282 | Dual Pure 160 | 160 m ³ |
