

CTX-56 Netoline

PRODUCT DESCRIPTION:

Acid detergent specially formulated to eliminate grease circles, filth and calcareous deposits from the swimming-pool edges, walls and required surrounding areas.

PRODUCT QUALITIES:

Aspect..... Dense liquid with gelatinous consistency
Colour..... Rosy
pH in supply..... 0
Density 1.05-1.09 g/cm³.

PRODUCT CHARACTERISTICS:

It completely dissolves calcareous deposits and metallic oxide stains.

It does not give off neither damaging smokes nor steams.

It is easily applicable on vertical surfaces with a paintbrush or a roller. Unlike the cleaning products commonly used, this one allows to increase the product performance.

Due to its consistency, it sticks on the walls and does not splash the users.

DOSAGE AND INSTRUCTIONS FOR USE:

Apply the product without diluting it in a cloth or a sponge and rub the areas to clean. In case there is persistent filth in the areas near the water front, it is advisable to make the water fall down in order to get a greater effectiveness.

The approximate consume is about 15 litres for every 100 m³ of the swimming-pool water, depending on the degree of dirtiness.
