

## CTX-37 Xtreme Floc

### DESCRIPTION:

**Double-action** polymeric product: “coagulant” and “flocculating”. It is especially formulated to obtain a higher efficiency in the filtration of water with the purifier system.

This product is a **slow dissolution** tablet that totally eliminates floating elements that are not kept by the filter. The result is complete transparency of the swimming pool water.

The tablet swells when in contact with water creating a gelatinous mass that dissolves slowly to dose the necessary quantity of product to keep water clear.

### PROPERTIES:

Appearance .....	Solid in tablets
Colour .....	yellowish white
pH (1%).....	4 - 5

### CHARACTERISTICS:

High speed of coagulation.

Excellent speed of leaning.

It forms easily filterable floccs.

It eliminates metallic ions such as iron and manganese.

It eliminates organic stuff.

Less content of aluminium in water treated with product.

It reduces the consumption of disinfecting products.
