

CTX Natural Clarifier

DESCRIPTION:

Biodegradable flocculant with great flocculation power capable of removing colloid particles from swimming pool water.

PROPERTIES:

Appearance	Liquid
Colour	Bluish-green or amber
Apparent density.....	1.0 - 1.1 g/cm ³
pH.....	3.0-4.5

CHARACTERISTICS:

- Biodegradable product to clarify cloudy water.
- Removes the remains of body oils and/or creams.
- Compatible with most disinfection treatments.
- Removes excess metals.
- Removes organic material.
- Allows a reduction in filter washing time.
- Improves the performance of electro chlorinators.
- DOES NOT CONTAIN POLYACRYLAMIDES.

DISPENSING AND USE:

Maintenance treatment:

Home swimming pool: with the filtering equipment on and with no swimmers in the pool, add 40 ml of product for every 50 m³ of water every week.

Commercial or busy swimming pool: treat the swimming pool water twice a week with double or triple the standard dose.

Recovery treatment (cloudy water):

For cloudy water, double or triple the standard dose.

La información contenida en este folleto es según nuestro criterio correcta. No obstante, como las condiciones en las que se usa este producto caen fuera de nuestro control, no podemos responsabilizarnos de las consecuencias de su mala utilización.

This guideline dose can be changed depending on the characteristics of each swimming pool, weather conditions, etc.

How to use:

- Check the filter pressure (clean if necessary).
- Pour the product dose directly into the swimming pool and spread evenly over the surface. No premixing is necessary.
- Keep the filtering system on for at least six hours after adding the product.

The product should preferably be added at dusk and without swimmers in the pool.
