

RESIDENTIAL ROBOTIC POOL CLEANER

XTREME III Automatic Pool Cleaner

- Two high pressure **Power Washing** Jets
- Wireless Remote Control
- Cleans Walls, Waterline and Floor.
- Maximum water flow power **18m³ / h!**
- NeverStuck™ system and DeepClean™ PVA brushes

Efficient Cleaning and Total Control.

The XTREME 3 is automatic, more powerful and more efficient compared to the rest of the XTREME range of cleaners thanks to its Power Washing jets, which

have the ability to remove embedded particles on the bottom of the pool floor when brushes just aren't enough.

AQUAPRODUCTS

THE WORLD'S LEADER IN ROBOTIC POOL CLEANING SOLUTIONS

XTREME III

RESIDENTIAL ROBOTIC POOL CLEANER

Power and efficiency with total control.

XTREME 3 cleans and vacuums dirt on the floor, walls and even along the waterline with total comfort and control.

Powerful:

Water pressure from the Power Washing jets helps remove embedded particles, further enhancing cleaning of your pool. The high performance pump motor helps vacuum debris as small as 2µ into the micro-filter bag that other cleaners can't.

Efficiency:

XTREME 3 is equipped with two rotating DeepClean™ PVA brushes and a NeverStuck™ anti-obstacle system. The G-Tooth™ grip system makes this cleaner equipped to handle any surface more efficiently.

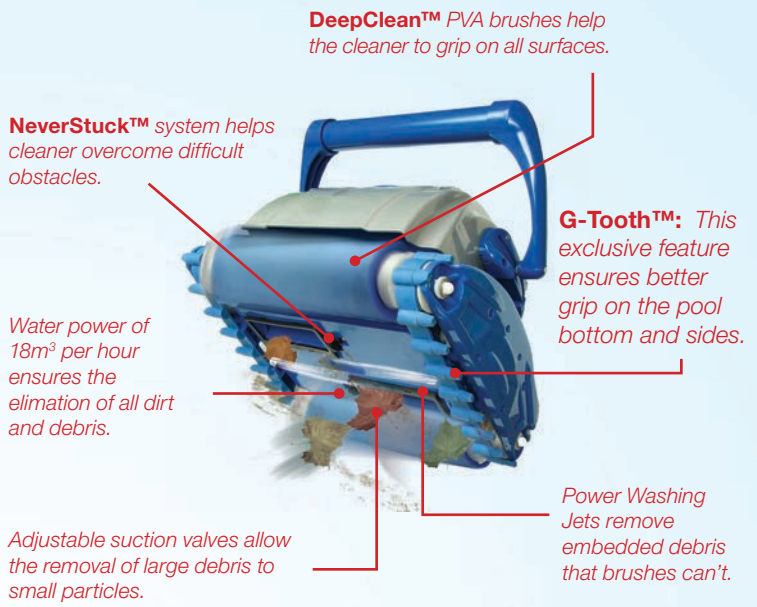

Included are adjustable suction valves that allow for optimal suction and removal of large and small debris, especially leaves.

Control:

The 1-7 hour automatic cleaning cycle make this cleaner adjustable to your needs. The electronic timer display makes it easy to set XTREME 2 to clean your pool walls, pool bottom and waterline in the desired timeframe. The wireless remote control allows you to "spot clean" missed areas of the pool for optimal control of your cleaner.

...and SAVE!!!

The XTREME range of robotic pool cleaners features filtration and cleaning that can save you up to 50% in pool maintenance, thus reducing your electric bills, water and chemical consumption.

SPECIFICATIONS	
Designed for Pools	Up to 15m long of any pool type / shape
Cleaning Time	Adjustable 1-7 Hours digital timer
Brushes	2 DeepClean™ PVA brushes
Filtration	Independent and high capacity filtration as small as 10 microns
Suction Capacity	18 m ³ /h
Motor / Drive System	30V AC, sealed, brushless, water-cooled and lubricated system
Wattage	230 Watts
Voltage	230 V / 50hz, 30V AC for the robot
Cable	18m, Self-Floating; Kink-Free
Warranty	2 years
Manufactured in	United States
Certification	GS Mark (TUV)
Net Weight	8,12 Kg.
Gross Weight	16,56 Kg.
Robot Dimensions	44,5 x 40 x 30 cm
Packaging Dimensions	49,5 x 46,3 x 44,5 cm
