

GALAXY ROUND POOL

STÄL POOLER

GALAXY Round Pool

Galaxy POOL® round pools can be built entirely above ground and / or partially in the ground.

Round pool consisting of hot dip galvanized, 0,6 mm strong steel wall (at 1,5 m depth, 0,8 mm). Additionally coated with polyester plastic on the outside (RAL 9010, pure white), coated with protective paint inside. The steel wall ends are joined into a stable form using aluminium pins, simple joint that can be released. PVC welded cord hand bar and floor rail. PVC inside shell made of UV stabilised, tear proof and cold resistant foil, 0,6 mm in strength, blue, basically with welded cord.

For stairs: the foil has to be made to special dimensions, if the Stairs are to be built in a round part. This must be indicated when Ordering.
