## CARATTERISTICHE TECNICHE TECHNICAL CHARACTERISTICS

▼ I "Cable Inlet Fitting Box" sono la migliore opzione di garantire collegamenti stagni mediante cavo attraverso le pareti della fontana, e allo stesso tempo di collegare tra di loro vari dispositivi. Si tratta di un modello molto robusto e resistente all'ossidazione, realizzato interamente in acciaio inossidabile AISI 316.

A cable inlet junction box is the best way of ensuring watertight connections of cables through the walls of a fountain and interconnecting various devices at the same time.

This junction box is a very robust model that is resistant to oxidation and made entirely of AISI 316 stainless steel.
