A RIIOT LABS INNOVATION

blue by Riio
The smart pool
analyzer

Blue helps you take care of your pool 24/7, even when you're not at home

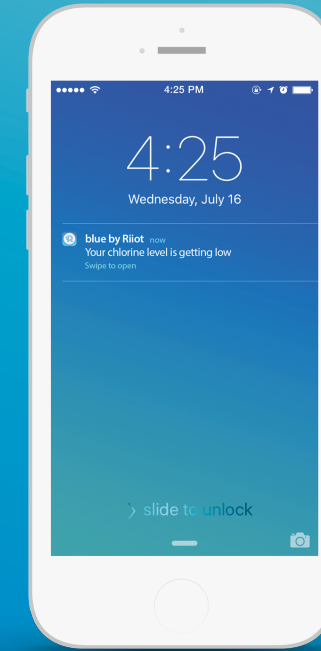

- > **Discrete, smart design.**
Works with every type of pool.
- > **Connected.** Blue uses the Sigfox network, a French technology that frees you from your "internet". Blue is also compatible with Bluetooth.
- > **State-of-the-art technology** that continuously and reliably measures water quality 24/7.
- > **Eco-design.** Blue is made to last. Remplacer sa recharge est un jeu d'enfant.
- > Measure temperature, pH, ORP (Redox) and conductivity thanks to Riot Labs' all-in-one sensor.

Stop worrying about your pool, blue is taking care of it for you.

Clear, precise information.

Real-time monitoring of water quality and weather forecasts, in a single app.

Notifications at the perfect time.

Blue helps you look after your pool and your family by sending you smart notifications.

Save time and money.

Thanks to our step-by-step guide designed by swimming pool specialists, blue assists you in optimizing your use of chemical products
