

CTX-1596 PhosFree

DESCRIPTION:

Product specially formulated to remove phosphates from swimming pool water. Phosphates provide food for algae, so the application of PHOSFREE prevents it appearing and growing.

PROPERTIES:

Appearance	Liquid
Colour	Colourless - slightly orange
Apparent density	1.6 +/- 0.05 g/cm ³
pH.....	>2

CHARACTERISTICS:

- Removes phosphates from chemical products, fertilisers, cleaning products and other contaminants.
- Compatible with most disinfection treatments.
- Improves the performance of electro chlorinators.

DISPENSING AND USE:

Initial treatment: (for high levels of phosphate)

1. Carry out an analysis of the phosphate levels in the swimming pool using a phosphate kit.
2. Clean the filter.
3. Calculate the amount of product needed (using the following dosing table), pouring the product dose directly into the swimming pool water and spreading evenly over the surface.
4. Keep the filtering system on for at least 24 hours (if the filter pressure increases by more than 10 PSI clean the filter).
5. After 48 hours, analyse the phosphate level with a phosphate kit. If necessary, repeat the treatment with PHOSFREE.

La información contenida en este folleto es según nuestro criterio correcta. No obstante, como las condiciones en las que se usa este producto caen fuera de nuestro control, no podemos responsabilizarnos de las consecuencias de su mala utilización.

Volume of your swimming pool	Amount of phosphate in your swimming pool				
	250 ppb	500 ppb	1,000 ppb	1,500 ppb	
25 m ³	75	150	300	450	ml
50 m ³	150	300	600	900	ml

Maintenance treatment:

With the filtering equipment on and with no swimmers in the pool, add 60 ml of product for every 50 m³ of water to keep the phosphate levels below 125 ppb (parts per billion).

This guideline dose can be changed depending on the characteristics of each swimming pool, weather conditions, etc.

Note: The use of PHOSFREE may make the swimming pool water cloudy in the initial phase. This is normal and indicates that the product is working. It will disappear in a few minutes.
