COMFORT & ELEGANCE

OUR TIPS

It is equally important to shower before getting into a pool as it is getting out of it.

Not just out of hygienic considerations but also to keep the pool water clean and protect personal health.

When getting out of a pool it is also important to shower to remove traces of chlorine from your body and hair.

What's more, the contrast between the heat of the sun and cold water can cause thermal shock, whose effects are commonly associated with stomach cramps. This is **why we also recommend our solar showers to avoid this sudden temperature change.**

More than 70% of pools are equipped with showers. **Make the most of the range of AstralPool's Chrome Showers to equip or upgrade your pool!**

SOLAR CHROME SHOWER

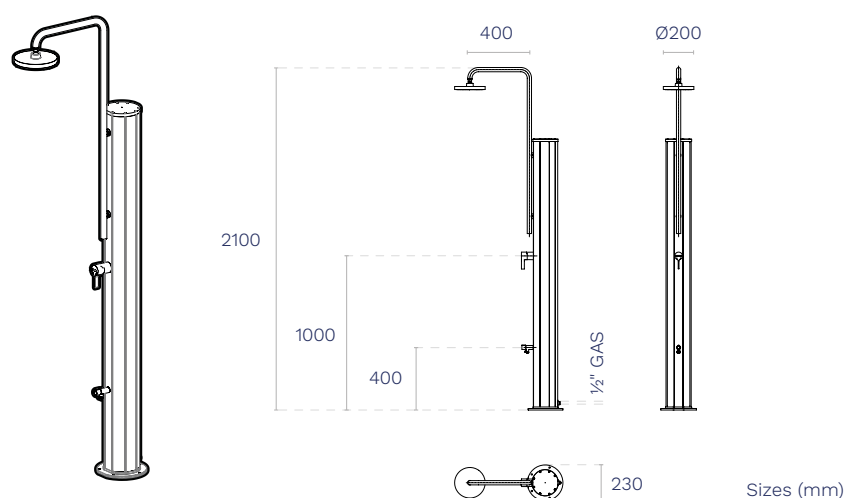

EXCLUSIVE DESIGN
& ENVIRONMENTALLY FRIENDLY

With an elegant, streamlined design, the AstralPool Chrome Solar Shower stands out for its modern vintage style, in a wide range of colors and finishes so that you can choose the one that best fits in with your pool surroundings.

Enjoy a relaxing experience before and after every swim thanks to its large 30 l tank to obtain hot water without consuming energy. This green solution for the daily use of your pool contributes to looking after the environment, as well as your health and that of others.

TECHNICAL SPECIFICATIONS

- **A 30 l hot water tank** – The leading environmentally friendly system (sunlight heats the water) in the market.
- AISI 304-L stainless steel tube and Aluminum framework.
- Wide range of metallic finishes and colors.
- Anti-limescale shower head and rain effect.
- Hot and cold water mixer tap.
- Foot washer tap.
- Ease of maintenance: drainage for emptying the shower in winter to prevent damage and wear.
- Easy installation: back inlet compatible with hose connection.
